

LAURA OLEA

A native of southern Spain (Málaga), Laura Olea has a degree in Publicity from the University of Madrid.

Creativity has always been an indispensable part of her life. Her first artistic manifestations began with the creation of her own hat and flower workshop, working with large fashion firms.

After 15 years, her artistic evolution led her to become interested in painting and collage, using the same workshop fabrics in her paintings. Her work seeks uniqueness and emotion as a result of her individual expression.

Her paintings invite you to approach and touch them. With the use of fabrics brought from Thailand and Morocco such as sisal, silk, sinamay, buntal or banana, she creates very balanced compositions full of textures.

In her pieces, natural fiber fabrics, sand and natural dyes with neutral and elegant tones are the protagonists with the idea of decorating a space and making it comfortable.

Laura's work invites relaxation and calm and makes the space timeless.
